Computer Engineering

WORK EXPERIENCE

Mid-Level UI/UX Engineer

Feb 2025 – Present

Deerhold Nepal

Actively involved in Figma design for a **US Healthcare** project, ensuring intuitive user interfaces and seamless user experience.
Involved in data visualization for a US healthcare product, utilizing Highcharts to select the most effective graphs and present complex data clearly.
Actively involved in company-wide design decisions, offering insights for design revamps and continuously improving the overall user experience across projects.

Associate UI/UX Engineer

Apr 2024 – Feb 2025

Deerhold Nepal

Design

Created user interfaces in Figma, ensuring intuitive design and responsiveness.
Developed high-fidelity wireframes, iterative prototypes, custom illustrations, and design assets. Involvement in **US Healthcare** project.

Technical

Built e-commerce dynamic websites using React and Node JS & CSS framework.

Teamwork & Collaboration

Collaborated with clients to align requirements and deliver design solutions by understanding client's requirements clearly.
Also worked in iterations along cross-functional teams to ensure smooth project execution and continuous feedback.

UI/UX Engineer Intern

Sep 2023 – Apr 2024

Deerhold Nepal

Assisted in creating Figma designs, developing illustrations, and building user interfaces using frontend technologies. Gained hands-on experience with React.js, HTML, and CSS while applying design principles to enhance usability and aesthetics.
Developed proficiency in Adobe Illustrator and user experience design, collaborating with teams to improve workflows and project outcomes.

Software Engineer Intern

Apr – Jun 2023

Leapfrog Technology Inc.

Learned the fundamentals of HTML, CSS, and JavaScript.
Developed solo projects like Flappy Bird and Candy Crush using vanilla JavaScript (without frameworks). Gained hands-on experience in DOM manipulation, event handling, and game logic implementation.
